Since England was govern'd by a Lord Protector Dec 1646

Fear God, honour the King, and meddle not with them that are
rebellious, Prov. 24. 2.

The Explanation of the precedent Table, very necessary and profitable for Practitioners in the Law, and Scriveners, &c.

Imagine I have a Lease dated the twentieth day of April, in the 20 year of the Raigh of *Queen Elizabeth*, and desire to know certainly how long it is for. Look in the precedent Table when *Queen Elizabeth* began her raigh, and in the same Table against *Queen Elizabeth*, and in the Column under the title (began her raigh) you shall find 1558. November 17. which shews that she began to raigh the 17 day of November 1558. To which if you put 20, (the year in which the Lease was dated) the number will be 1578. which being deducted from 1659, the year that now is, there will remain 81. the true and just number, or year sought for. The like of any other, but shall note that when the date of the Lease falls not before the 25 day of March and the beginning of the Kings or Queens raigh, in which it was dated, then from the number found out you must abate one.

The Refulgent Planer *Venus* is occidentall and setteth before the Sun, called *Hesperus vel Vesper*, the evening or herberds Star, from the beginning of the year untill the tenth of February. And then she becoms orientall, and riseth before the Sun called *Lucifer* the day star, and so continues till the 16 of November, and from thence she is occidentall till the yeares end.

The Explanation of the Table. I would know the Interest of 45^l for 9 Months and one week at six per Cent. I look 40 in the first Column, and right against it in the Columns Intituled 6 Months, 3 Months and a week, I find these three several Sums 34^l 12s 1d. And against 5 in the first Column under the said Title I find these three Sums (viz.) 3^l 1s. 6d. 1d. ob. All which put together make 47s. 7d. ob. the just interest of 45^l for 9 Months and 1 week, the like of any other greater or smaller Sum.

TO THE
READER
Upon his Ingenious
FRIEND
AND
NEIGHBOUR,
Mr. Thomas Wilkinson,
the AUTHOR.

Our Lives like Almanacks (such is our fate)
Within a twelve-month may be out of date;
Yet if thou liv'st, and dost desire to see
Vicissitudes of Times, look here they be;
What *Pend* and others could not do in one,
Are here compriz'd by *Thomas Wilkinson*.
Then thank the Author, and tell him from me,
When others makes thee look, he makes thee see.

H. T.

Wilkinson, 1659.

An Appendix unto the precedent
Calendar for the Year of our
Lord Christ, 1659.

Being the 2. Year after Bessetide, or Skip-Year.

Of the Eclipses that will happen this present Year, 1659.

Four times will the glorious Lamps of Heaven be Eclipsed this year, yet but 3. of them will be visible to us the inhabitants of England, viz, two of the Moon, and one of the Sun.

The first whereof is of the Moon, and hapneth the 26. day of April in the evening, and beginneth half an hour after 6. and endeth 21. minutes after 9.

The second is also of the Moon, and doth happen on Thursday morning, the 20th. of October about 3. in the morning, and will end half an hour after 4.

The third and last visible Eclipse, is a great Eclipse of the Sun; which will be seen (if Clouds hinder not) upon the 4 h. day of November; the beginning will be about 3 quarters of an hour after one of the clock in the afternoon, and the end a little after 4. The parts Eclipsed are 8 degrees, and 48 min. the whole continuance 2. hou. 2. 1. min.

Here I might write much of the influence, and effects of these Contingents, but I shall forbear, least the ignorant in these most noble and laudable Sciences, or the illiterate should tax me for a Brain sick, or too too scrupulous a Speculator.

The Nature and qualities of the 12 Signs.

Aries, Leo, and Sagittarius, are hot, dry, and fiery.

Taurus, Virgo, and Capricorn, are cold, dry, and earthy.

Gemini, Libra, and Aquarius, are hot and moist, airy or windy.

Cancer, Scorpio, and Pisces, are cold, moist and watery.

A'Prognostication.

A very necessary Table, shewing how many years purchase any lease or Annuity under one and thirty years is worth in ready money at 6 per. cent.

The purchase.				The purchase.			
Years of the lease.	Years.	Months.	Parts.	Years of the lease.	Years.	Months.	Parts.

14	9	3	6	29	13	7	1
15	9	8	5	30	13	9	2

The use and explanation of the Table.

The first row, or column under the title (years of the Lease) sheweth the time that the lease or Annuity is to last, and right against your year there is set down what such a Lease or Annuity is worth in ready Money, in y. m. & parts of a m. the m. being divided into ten parts.

As for example, suppose you have a Lease or Annuity to last for 21 year, and would know how many y. purchase it is worth, look for 21 years under the title (years of the Lease) and against the same you shall find 11 y. 9. m. and 3. 10th. parts. of a m. purchase.

A Prognostication.

A Bill Obligatory, wherein one is Bound to one.

KNow all men by these presents, that I Maximilian Trotter of Farnham, in the County of Bucks, Yeoman do owe and acknowledge my self to be indebted unto James Norton of Wotton in the County aforesaid Gent. in the sum of ten pounds of good and lawful Money of England, due to be paid to the said James Norton, his Executors or Assigns, in and upon the first day of May next ensuing the day of the date hereof. To the which payment, I bind me, mine Heirs, Executors, and Administrators in the sum of twenty pounds firmly by these presents; in witness whereof, I have hereunto set my Hand and Seal, the 1. day of Nov. Anno Domini, 1659.

Scaled and delivered

in the presence of Maximilian Trotter.

A Bond wherein two are bound to one.

Know all men by these presents, that we James Man of Sutton in the County of War Baker, and James Nelson of the same Town and County, Draper, are bolden and firmly Bound unto Robert Newman of Warner in the said county Yeoman, in the sum of one hundred pounds of lawfull money of England to be paid to the said Robert, or to his certain Attorney, his Executors, or Assigns. To the which payment will and truly to be made, we bind us, and both of us severally by our selves, for the whole, and in the whole our several Heirs, Executors, and Administrators firmly by these presents. Sealed with our Seals: Dated the 1. day of May, in the year of our Lord God, 1659.

The condition of this Obligation is such, that if the above bounden James Man, and James Nelson, or either of them, their, or either of their Heirs, Executors, Administrators, or Assigns, do pay, or cause to be truly paid unto the above named Robert Newman, his Executors, or Assigns, the full sum of fifty and three pounds of lawfull Money of England, in and upon the third day of Nov. next ensuing the Date hereof without any fraud or longer
